### BYREDO SCENTED CANDLE

Created by Stockholm Art School graduate Ben Gorham, ByRedo candles are the hippest way to ease away the day. Fantastic Man, Rose Noir, Chembur and Pulp are just some of the names given to the candle that's infiltrating every A-list abode.

## THINGS

*we love*

### LANVIN NOTEBOOKS

Lanvin's set of three paper notebooks was created to mark Alber Elbaz's first decade at the storied label. Each one is covered with a print of the designer's favourite sketches and fabric swatches. Whether scribbling a memoir, penning the groceries or simply doodling your way through a meeting, this is the only way to get noted.

### WUNDERKAMMER

Florian Seyd and Ueli Signer are equal parts florists, equal parts decorators. With a love of nature, a passion for blooms and a natty eye for pure design, the Dutch duo have made their high-end florist, Wunderkammer the nature equivalent of a highly fashionable curiosity shop. In short, we want in.
